

The Mom Song

Oh yeah
This thing right here,
Just letting all the Moms know
How we feel about 'em
On Mother's Day
Check it out
Boom, my Mom's the best around
There's not another woman like her in town

She makes breakfast everyday
She even came to see me in my High School play
I remember when she bought me clothes
When I was a little baby she wiped my nose
She always sits in the front row
And drives me to soccer practice

Cook like a chef
Help me study for that test
That woman is the best
Gonna sing it again
She can cook like a chef
Help me study for my test
All night long
That's why I love my Mom

(can't make out?HELP)
Every time I scrape my knee
Nobody can take her place
My Mom mom mom mom mom
(can't make out?HELP)
Every time I scrape my knee
Nobody can take her place
My Mom mom mom mom mom

Boom my Mom was nice to me
And you know she always took us out for icecream
She took us out on our days off
And to the doctor's office every time we coughed

There's no way to repay
(Can't make out...each day)
That's why I just have to say
That Mom I just have to thank you

She would drive us to school, school school
Take me to the pool, pool, pool
My Mama's too cool, cool, cool
I'm gonna sing it again...
She would drive me to school, school, school
Take me to the pool, pool, pool
And not complain
That's why I love my Mom

Take her a restaurant
Take her any place you want
Make sure you're super nice to mom, mom, mom, mom, mom
Repeat...
